Hello,

We are in possession of a hard copy of the French et al. 1992 report (including a copy of the 1991 draft copy with hand written comments for the contractor). I can talk with our support staff about providing a paper copy to the group. Is there a specific volume of interest or the entire document? Note: I haven't come across the Figure 3 taken from Schwartz 2009 provided to the group in the original document, but all figures in the original document are in black and white.

Jane
